We got it covered. Thanks a bunch!

Have a good weekend.

Also, LaWanda would like to send this to HQ when it's "final." Please let her know. Or I can send it if it is in fact, "final, final, not draft final. " ☺

THANKS!

Couple of corrections.

9528601

Paragraph 1 – I did not see anywhere in the June 20, 2013 ESB Report that recommended open burning within two years.

Paragraph 2 – According to news reports, the evacuation took place from November 30 – December 7, not November 28 – December 7.

Here is the latest and, I HOPE, final iteration of this fact sheet. Some of you have versions that were almost final ...please dump them and use this one.

Subject: Explo Executive Summary

Attached is the Executive Summary for our briefing for Senator Landrieu's staff next week. We also have a PowerPoint presentation and more detailed work plan that are being finalized today that I'll pass along. Call me if you have questions or suggestions for improving this summary.
